despite the high regard in which francesco petrarca 1304 74 held st augustine scholars have been inclined to view augustine s

impact on the content of petrarch's thought rather lightly wedded to the ancient classics and prioritising literary imitation over intellectual coherence petrarch is commonly thought to have made inconsistent use of st augustine's works adopting an entirely fresh approach however this book argues that augustine's early writings consistently provided petrarch with the conceptual foundations of his approach to moral questions and with a model for integrating classical precepts into a coherent christian framework as a result this book offers a challenging re-interpretation of petrarch's humanism and offers a provocative new interpretation of his role in the development of italian humanism

the 1920s was a time of unprecedented growth in the nation's oldest city fueled by a land boom that began in south florida st augustine was inundated with land speculators and new subdivisions the city floated a million dollar bond issue to construct the bridge of lions and d p davis filled in a marshland to build the magnificent subdivision of davis shores a new coastal highway linked the town with beaches to the north and south and opened up st augustine's beautiful shoreline for development all of this activity halted when the land boom collapsed in the late 1920s st augustine in the roaring twenties details the roller coaster events of the city in this exciting decade

st augustine's confessions is one of the most important works in the history of literature and christian thought written around 397 when augustine was the christian bishop of hippo in modern day algeria the confessions were designed both to spiritually educate those who already shared augustine's faith and to convert those who did not augustine did this through the original maneuver of writing what is now recognized as being the first western autobiography letting readers share in his own experiences of youth sin and eventual conversion the confessions are a perfect example of using reasoning to subtly bring readers around to a particular point of view with augustine inviting them to accompany him on his own spiritual journey towards god so they could make their own conversion carefully structured the confessions run from describing the first 43 years of augustine's life in north africa and italy to discussing the nature of memory before moving on to analyzing the bible itself in order the sections form a carefully structured argument moving from the personal to the philosophical to the contemplative in the hundreds of years since they were first published they have persuaded hundreds of thousands of readers to recognize towards the same god that augustine himself worshipped

the order of the hermits of st augustine has long been sidelined as a pale imitator of the franciscans this book provides a fundamental cross disciplinary re-evaluation of the lives ideas and impact of the augustinian friars by challenging the

scholarly focus on the urban sphere in communal Italy it explores the rapid emergence of Augustinian convents as lively religious and artistic centres on the margins of cities and in the Italian countryside moreover it demonstrates for the first time the existence of common intellectual themes which linked together dispersed Augustinian communities fired by contemporary debates about the antiquity of the order the Augustinian friars forged a fictive past in which they linked their origins to St Augustine and late antique hermits the book argues that saints objects and the natural environment all played a vital part in brokering the Augustinian ethos this is underpinned by tracing the things the hermits commissioned inherited and accumulated to become the heirs of St Augustine their forged antiquity was promoted not only through human agencies such as the creation of eremitical saints cults but also through the strategic use of the liminal position of their convents reinventing the Augustinian hermitages as places of power on the margins of the human sphere and the untamed natural environment at stake here is the extent of religious patronage in the rural landscape and the re-evaluation of the long standing tension between city and countryside in the medieval imaginary ultimately this book not only challenges the prevailing understanding of the mendicant movement as a quintessentially urban phenomenon but also sheds new light on broader processes of medieval societies in forging narratives of power prestige and antiquity through materiality and the natural environment

the great depression came early to St Augustine with the end of the Florida land boom in 1926 followed by the stock market collapse in 1929 hotels closed a major bank failed subdivisions folded and tourism was reduced to a trickle the city's main employer the Florida East Coast Railway went into receivership in 1931 and public works projects sought to bring relief to the unemployed the economy slowly improved toward the end of the 1930s but it was World War II that brought economic recovery to the town local hotels were taken over for military training and servicemen on leave from nearby military bases flooded the town bringing prosperity once again to the ancient city
